

IMS Policy

(QUALITY, ENVIRONMENT, OCCUPATIONAL HEALTH & SAFETY)

Godrej-E&E, a leading solution provider in Electricals and Electronics space, endeavors to enrich customer experiences by providing integrated product & services, to cater to the evolving needs of Industry.

The Division services the needs of interested parties in the areas of Power Infrastructure, Renewable Energy, MEP services, Energy Efficiency and Green Building Consultancy Services.

E&E as a team, through its Projects, Products and Services offering is committed to optimal use of resources, maximizing operational efficiencies and creating a favorable impact on both the Environment and Society.

We will

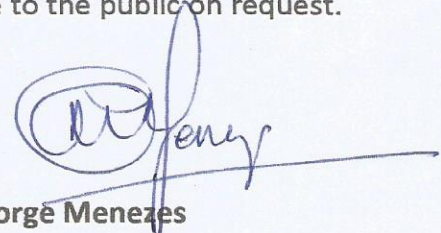

- a) Identify the needs of interested parties & meet their expectations.
- b) Enhance customer satisfaction through quality products and services
- c) Continually endeavor to reduce the rejection & rework and increase the recyclability.
- d) Conserve key natural resources and raw material by optimizing their use.
- e) Institutionalize pollution prevention practices and reduce waste generation.
- f) Follow best practices for safe operations at the workplace.
- g) Achieve consistently and review periodically, objectives and targets for effective implementation of IMS.
- h) Ensure training & awareness on Quality, Environment, Occupational Health and Safety to our employees, contractors, suppliers and interested parties who are working for or on behalf of Godrej Electricals and Electronics.
- i) Comply with applicable Legal & other requirements related to Quality, Environment, Occupational Health and Safety.
- j) Ensure a safe and healthy work environment for all our employees, associates and stakeholders.

We will review this policy periodically & update it to ensure its relevance to the changing Business Landscape, Regulatory Environment & Social context.

The policy shall be communicated to the employees and persons working for or on behalf of Godrej Electricals & Electronics and will also be made available to the public on request.
